

WESTERLY

Postmaster Lehman announces that beginning this month the price of treasury saving certificates have been advanced on account of the continued increase in value of Liberty bonds, as well as the general advance in all investments and the gradual decline in interest rates. The government has decided to reduce the rate of interest paid on treasury savings certificates to a basis of four per cent, compounded semi-annually.

Narragansett Council No. 21, K. of C., is to stage a frolic at the Opera House this month and the rehearsal for it is all ready being held. About 500 members are working will take part.

The warm days which are now prevailing are helping out people here and at Stonington, so far the coal question goes. Very little fuel is being consumed at Westerly and its neighboring towns as the rate coal is arriving in Rhode Island since the miners went back to work about three weeks ago, production is made that there will not be so much suffering as was feared. Coal is arriving here in Rhode Island every week and of course Westerly will receive its share. Rhode Island's allotment for the 1925-26 season is about 60 per cent of the normal supply. It is estimated by local dealers that 155,000 tons of hard coal per month will have to be shipped to Rhode Island between now and January if consumers are not to suffer.

Westerly people are encouraged over the employment situation. The textile industry is gradually turning to normal, as is shown by the latest statement issued by the department of labor. Plants in Westerly are running and adding to their working forces each week. There is no surplus of workers in Westerly and practically all are employed. The felt company here has been closed but is to resume operations within 15 days.

The housing problem is becoming acute in the town as there are few places for rent and they are hard to get. Rent has been raised here.

The Westerly town council met Monday in the council chamber at the application of Joseph T. O'Brien, president and manager of the Westerly Athletic club, to play professional football at Riverside Park on Sundays from Oct. 1 to Dec. 10, 1925. The council voted to grant the application.

A claim was presented to the meeting by Harry M. Roberts which amounted to \$25 for damages alleged to have been done to his automobile by the passing of a Sunday baseball at Riverside Park. The claim was granted.

The town council voted to pay \$117.55 due the highway department for repairs made to Main street and the same was charged to the sewer account. Another account of \$117.55 due the highway department for repairs made to the highway was also charged to the sewer account.

The town council stated that he had a communication from H. W. Perkins of the State Line Electric Railway company in which he stated that the company refuses to pay for the work done in repairing the highway after the tracks had been laid, following the laying of the sewer pipes. The council also stated that certain agreements were made with town officials.

Joseph H. Ellis appeared before the council, representing residents of Central Park. He told of the terrible condition of the main road leading to Central Park and while the council had no jurisdiction over the highway, thought they might use their influence in speaking to the commissioners, toward getting some thing done. The commissioners cannot extend money on a highway until it has been accepted and it was suggested that they have the road laid out and accepted, and ask that something be done in the way of appropriation at the town meeting.

A blue print of the proposed charges and the dock of the American Thread Company sent by Major Peterson, U. S. engineer for approval by the council, was examined and was approved. A new dock is to be erected by the Thread company and new piles will have to be placed in front of the old ones. They will extend out into the channel about three feet. To keep the channel the same, with as at present the company proposes to dredge out the east bank of Rhode Island side of the channel.

The report of Dr. R. E. Robbins, milk inspector, was read and approved. Many samples of milk and cream were taken and two complaints investigated. Dr. Robbins' health officer, reported a case of erythema, one of measles and one of mumps.

Chief of Police Thomas E. Brown reported for the month of September, 22 arrests, 3 for intoxication, and one for intoxication, while operating an automobile. Four milk licenses were granted. \$100 was voted the South County Poultry and Pigeon Association to be used as special premiums at their exhibit.

Action was deferred on holding a joint meeting of the council with the selectmen of the town of Stonington, concerning establishing building lines along the Pawcatuck river. Mr. Peterson, U. S. engineer, had been invited to attend his meeting.

The following supervisors were chosen for the coming election in November: Democratic, First district, Cornelius G. Murphy and Dennis Geary; Second district, Edward Farrell and Joseph Murphy; Republican, First district, Mrs. Cora Chapman and Charles Miller; Second

district, Everett Barnes and Miss Mabel Saunders.

A notice was received from the Connecticut health authorities inviting the council to appear at a hearing in Pawcatuck regarding the dumping in the Pawcatuck river if they care to be heard in the matter. No action was taken and members of the council will probably go as individuals if they care to. The police committee reported their appropriation was practically all used up.

Between \$4,000 and \$5,000 in back poll taxes are yet to be collected around the council ordered that action be taken at once to see they are paid. A committee was appointed and the following were chosen: Town treasurer James C. Tonderson, Town Solicitor John Ferguson and Councilman Fowler to take charge of the matter.

This (Tuesday) afternoon there will be a special meeting of the council with the waterworks commission and they are to try and have the sewer contractors finish their work in the streets here and make the streets passable and safe.

This action has been brought about by "near suits" which have been started as the result of accidents on the streets opened by the sewers.

Monday as the Westerly trolley car rounded the curve at Hyde corner on the corner of Elm and Chiller street at 12.19 a large trolley car, owned by the Westerly trolley company, was struck by a trolley car owned by the Westerly trolley company.

The American Woolen company has had the collar poured and framework started on the houses they are erecting on Sunnyside and they have removed an old historic landmark also, the warehouse known to old time settlers as the old red barn. It was situated near the railroad track and across from the canal and in times gone by bore the sign "Private way—no trespassing" tucked on the side. It was a sign all read but few heeded—as the one blank wall on the side of the canal has been succeeded by a modern bridge, with gates, and travelers have made it a public way.

The American Woolen company has used the lumber to reinforce and build up some of the buildings in the mill yard.

STONINGTON

Mr. and Mrs. Richard Lopez have returned from several months' trip spent in the Azores.

Mr. and Mrs. Peter Daniels were callers in Providence over Sunday.

Mrs. Nathan Brewster of Laurel Hill was a caller Sunday at the home of Mr. and Mrs. William Ledward on Elm street.

Mrs. Benia Williams of New York is a guest at Rev. William F. Williams'.

Miss Sally Palmer of New York is the guest of Mr. and Mrs. Harry Babcock on Main street.

Miss J. M. Pendleton, R. N., returned to Hartford Monday, where she is taking a course in child hygiene.

Mr. and Mrs. Raymond V. Congdon and children, Florence and Raymond, V. Jr., have returned from a week end visit in Providence with Mrs. Congdon's parents, E. and Mrs. Adolph Ploetter.

Mr. and Mrs. J. Vanderwaert, Pa., after spending a few days in town with Mr. and Mrs. Cornelius P. Vanderwaert.

Mr. Charles Jones (Mary Haines) of Rye, N. Y., was a week end guest of Mrs. Howard Bishop.

Mrs. John Kilroy spent Sunday in Hartford, the guest of Mr. and Mrs. Frank Stetson.

Miss Mildred Pendleton and Miss Pounce of Norwich town were visitors in Hartford Saturday.

Mrs. Rowland Hewitt has returned to the home in Stonington after spending the week in town with her sister, Mrs. Elias Stockett.

Mr. and Mrs. J. Louis Oliver of South Manchester spent the week end in town with Mr. and Mrs. J. R. Robbins.

Rowland Hewitt of Stonington spent the week end with relatives here.

Mr. and Mrs. Elias Stockett were visitors with their guests, Mr. and Mrs. Rowland Hewitt.

Ralph Gibbs met with a painful accident Sunday when he stepped on a rusty nail where the old chapel has been removed. He was attended by Dr. Charles Thompson.

Rockville

Fred Bost of Norwich was a visitor here Sunday.

Mr. and Mrs. Elmer E. Kenyon and Mrs. Byron L. Kenyon were recent callers at Atlantic Beach and Quonochontaug.

Mr. and Mrs. Henry O. Knapp of East Providence were callers here Sunday.

Miss M. Lena Saunders is the guest of relatives near Westerly.

Mr. and Mrs. Harry Orndorff of Providence were recent callers on Mr. and Mrs. J. P. Greene.

Miss Olivia Chester is seriously ill.

Mrs. Phoebe Kenyon, who has been ill for a number of weeks, remains about the same.

Mrs. Sheffield Douglas is reported ill with pneumonia.

Mr. and Mrs. J. Taylor of Providence were at their home here over Sunday.

Mr. and Mrs. Edgar T. Spencer have returned home from a motor trip to Rochester, N. H. Mrs. Spencer's mother, Mrs. Charles Edwards, who had been on a visit with relatives there, returned home with them.

Camp Yawgoe at Yawgoe lake near this place is said to be the largest Boy Scout camp in New England. It was a very busy place during the summer months. A total of 67 different troops sent representatives to the camp, making 770 Boy Scouts and scout leaders entertained here this summer.

POISONED BY A RING OF THE BORGIA PERIOD

Zurich, Switzerland, Oct. 2.—(By the A. P.)—What is thought to be the poison of the 15th century Borgias has been transmitted to a curio collector here with serious effect. The collector recently bought a ring in Turin, Italy, made in the form of a serpent and guaranteed to be of the Borgia period. The buyer wore the ring and returned here found that his ring finger and thumb had swelled up. A doctor was called and declared that poisoning set in and was due to the ring. Investigation found that there was a small hole under the serpent's head, and from this the poison was emitted, but time had weakened its strength.

Muggins: "Yes, I'm living out in the country now. It certainly has its inconveniences."

Muggins: "What do you miss most?"

Muggins: "The last train home at night."—Buloh Herald.

A New Charm

Came to millions in this way

Millions of people have gained new charm through whiter, prettier teeth. You see them everywhere. The reason lies in a new cleaning method. Careful people of some fifty nations are using it today.

Test this method if you do not know it. People all about you have proved its importance. See what it means to you.

Combats the film

One purpose is to combat film on teeth—that viscous film you feel. It clings to teeth, enters crevices and stays. It absorbs germs, making the teeth look dingy. Then it forms cloudy coats. Tartar is based on film.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

No ordinary tooth paste effectively combats film. So, under

old methods, these troubles constantly increased, and beautiful teeth were seen less often than today.

Two ways found

To meet this situation, dental science searched for ways to fight film, and two ways were found. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved these methods effective. Then a new-type tooth paste was created, based on modern research. The name is Pepsodent. These two great film combaters are embodied in it. Then dentists the world over began to advise its use.

Other factors

But Pepsodent brings other effects which old ways did not bring. It multiplies the alkalinity of the saliva. That is there to neutralize mouth acids, the cause of tooth decay.

Pepsodent

The New-Day Dentifrice

Now advised by dentists the world over
All druggists supply the large tubes

Free
One 10-Day Tube
Send the Coupon

It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids.

Thus it gives manifold power to Nature's great tooth-protecting agents. And everywhere this means to people a new dental era.

Watch the man

Men who smoke find that tobacco particularly stains their teeth. Such men are conspicuous results. But most people's teeth, of every age, are clouded more or less.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film coats disappear.

That test will give you new ideas of what clean teeth mean. You will want your family to always have them, we believe. Cut out the coupon now.

10-Day Tube Free

BUILDING OPERATIONS IN NORWICH

That local building is at its height is evidenced by the fact that during the past quarter there were 81 building permits issued at the office of Fire Marshal Howard L. Stanton.

This figure sets a record for a three months period in the history of the city building operation. Permits for 22 frame houses were granted, one for new brick house, 3 for new brick buildings, new frame garages 20, new frame sheds 2, additions and alterations to frame buildings 28, additions to brick buildings 3, total \$1. According to figures compiled by the Commercial Record.

Building operations throughout Connecticut this week about the same increase when compared with the week of last year. In the leading towns of the state this week 237 building permits were issued for new construction work amounting to \$1,230,000. In the same week a year ago, 197 permits were issued for construction work amounting to \$234,454 and in 1924, 186 permits for construction work amounting to \$40,845 were issued.

Among the permits granted during the past week are the following:

To R. E. Baldwin, to erect a frame garage on Avery street for Baptist Church. Size 10x20 feet.

To Charles F. Ludwig, to erect a frame garage at 12 Peck street. Size 20x18 feet.

To P. F. Sweeney, to erect a frame garage on Washington street for Henry Land. Also porch, 11x12 feet, construction to be of concrete, brick and wood.

To P. F. Sweeney to make alterations to the front of the present station Main street, occupied by W. R. Perkins.

To Louis and Rebecca Narick to build an addition to the present building at 233 Central avenue.

To George Boucher to build a veranda, 12x20 on the house on Broadway avenue, owned by Henry Allard.

To John and Michael Ahearn to erect a 1 1/2 story frame house near 218 West Thames street for Patrick Brown. The house is to be 23x25 feet with all improvements.

To William H. Baldwin to erect a frame garage, 12x18 feet, on Russell street. The garage will have a concrete and stone foundation and floor.

To Ruell and Walker to erect a frame house on Bentley avenue. The house will be 24x26 feet with stone foundation and spruce frame. The exterior finish will be entirely in red cedar shingles. There will be 4 rooms on the first floor and three rooms and bath on the second floor.

To Alice A. Church to erect a frame garage at 33 Portsmouth street. The garage will be 12x18 feet.

To Frank Perry to build an addition to the present 1 story brick building at 24 North Thames street. The addition will be 12x24 feet.

To Joseph Trebant to erect a brick building for Mr. Bruckner and Mr. Cohen at 19 Main street, to be used as a store. Work has already been started on the building.

New London

From the plans of a local architect extensive alterations will be made to the garage located on Belden court for Anne Gripps. The present building will be converted into an apartment and stores building. On the ground floor will be two stores in the front, and a large storage space in the rear. On the second floor there will be eight apartments to be heated by steam and equipped throughout with modern conveniences.

Contractors have taken the contract to remodel the building owned by the R. M. Carroll Estate, 314 Bank street. The present structure which has been used as a laundry, will be converted into a garage. The cost of the work will approximate \$2,000.

Plans have been completed for a barn, now to be erected on Spring street for Mr. Caterino. It will be of hollow tile

HOPKINTON

Miss Deborah Wells is attending a business college in Providence.

Mrs. George K. Hixie has purchased an automobile.

Mrs. Bertha T. Brooks of North Andover, Mass., is visiting at the home of Mr. and Mrs. Frank H. Brown.

Mrs. William H. Burdick and Mrs. Harriet Wells camped at Winchuck pond last week.

Charles I. Blake was in Providence Saturday.

ALL THE WORLD AT WORK
(From the U. S. Commerce Reports)
For the seven months ending with last July this country exported more than \$20,000,000 worth of chemicals, a drop of about \$2,000,000 over the corresponding period of the year before. Wood alcohol was one of the chemicals in which the exports showed an increase.

Spain's almond crop is much bigger this year than last. More than 4,000,000 pounds were exported last year to the United States.

There are twenty-five woolen mills in Brazil.

NOVEL OF TOMORROW.
The chief concern of the American novel of tomorrow will be to uncover the beauty of our essential commonplaces living as the novel of today has uncovered (triumphantly, its ugliness)—Zona Gale, in Yale Review.

Nothing is so calculated to jar an eligible girl as a young man who talks about his money, but says nothing about matrimony.

In Charge Of Relief Work In Smyrna

Bridgeport.—Employees of the Crane company, makers of valves, have been put on an overtime schedule to refill inventories which have been heavily drawn on owing to improved business conditions.

Winsted.—Judge Frank W. Seymour was renominated judge of probate at the republican probate convention held at the town hall. Frank D. Hallett was chairman of the convention and C. W. Winslow was clerk.

Chester.—The 45th annual fair by the Chester Agricultural and Mechanical society was held on the town green and proved to be the largest ever held. It was estimated that 2,300 people were in attendance.

East Haddam.—At the convention of the 24th senatorial district held in Goodspeed hall Frederick DePeyer of Portland was nominated as the republican candidate for senator by acclamation. No other name was presented.

Shelton.—B. N. Beard has been chosen chairman of the democratic town committee for the fourth and Matthew J. McNulty has been chosen treasurer. The committee has elected two new members, Alcides Bourguin, and Joseph Stewart.

Waterbury.—Within a month or six weeks 12 or possibly 15 one-man cars will be put in service in this city by the Connecticut company. As is now planned, six will be run on the East Main street line, six on the Town Plot line and one on the Country club line.

West Haven.—While chasing a football in Campbell avenue, outside the U. S. public service hospital, Albert Riccio, 9 years old, of 5 Boylston street, Allington, was knocked down and seriously injured by an automobile operated by Samuel Schwartz of West Haven.

Perhaps also it would be desirable to see others as we see ourselves.

Put this splendid range to work for you and Save Money

THE State Crawford, the newest and finest of a proud line of cooking ranges, is offered this week only at an initial payment of Five Dollars, which we believe is the lowest price at which Crawford cooking and "lifetime construction" was ever introduced.

There's nothing new about the quality of cooked food it produces, nor about the sturdiness with which it is built—for Crawford Ranges have been so built since 1855.

But the generous oven-space is new, and so is the beautiful grey enamel finish and the white porcelain splashers, which transform an article of domestic convenience into a genuinely handsome piece of kitchen furniture.

You control your coal or wood cooking with a single damper on the State Crawford, and a gas end-attachment adds another oven, which means perfect coal or gas cooking, as you choose.

At Five Dollars, with convenient terms, it will pay for itself during the period of purchase. But the first payment must be made this week.

REVISED COPY OF NEW YORK

ADMINISTRATOR FOR ESTATE OF LATE RICHARD CROKER

New York, Oct. 2.—Petition of Richard Croker, Jr., for the appointment of an administrator for the estate of his father, the late Richard Croker, former leader of Tammany hall, was granted in surrogate's court today. The New York Trust company was named as temporary administrator of the estate in this jurisdiction, pending settlement of the contest of the will which has been instituted by the Croker children in the Florida courts.

The will, which leaves all the property to Bulia Croker, Richard Croker's widow, was filed by her for probate in Florida. Young Croker asserted in his petition to the New York surrogate that

Florida was not his father's domicile but that his real home had been, up to the time of his death, at Glencairn, near Dublin, Ireland.

In the petition filed by young Croker, he replies to references made by Mrs. Bulia Croker to litigation he instituted against his father's estate before the latter's death. The son's explanation is that he and his brother, Howard, and his sister Edna, gave testimony by the Florida litigation not against their father but in order to protect him.

The petition also states that Mrs. Bulia Croker has not evidenced intention to take out letters of administration either here or in Florida.

Every time one man loses his temper, another gains his point.
